

INBRED MAIZE LINE PHCWK

Abstract

A novel inbred maize line designated PHCWK and seed, plants and plant parts
5 thereof. Methods for producing a maize plant that comprise crossing inbred
maize line PHCWK with another maize plant. Methods for producing a maize
plant containing in its genetic material one or more traits introgressed into
PHCWK through backcross conversion and/or transformation, and to the maize
seed, plant and plant part produced thereby. Hybrid maize seed, plant or plant
10 part produced by crossing the inbred line PHCWK or an introgressed trait
conversion of PHCWK with another maize line. Inbred maize lines derived from
inbred maize line PHCWK, methods for producing other inbred maize lines
derived from inbred maize line PHCWK and the inbred maize lines and their
parts derived by the use of those methods.
